From the New York Times bestselling authors of Sprint comes a simple 4-step system for improving focus, finding greater joy in your work, and getting more out of every day. "A charming manifesto-as well as an intrepid do-it-yourself guide to building smart habits that stick. If you want to achieve more (without going nuts), read this book."-Charles Duhigg, bestselling author of The Power of Habit and Smarter Faster Better Nobody ever looked at an empty calendar and said, "The best way to spend this time is by cramming it full of meetings!" or got to work in the morning and thought, "Today I'll spend hours on Facebook! Yet that's exactly what we do. Why? In a world where information refreshes endlessly and the workday feels like a race to react to other people's priorities faster, frazzled and distracted has become our default position. But what if the exhaustion of constant busyness wasn't mandatory? What if you could step off the hamster wheel and start taking control of your time and attention? That's what this book is about. As creators of Google Ventures' renowned "design sprint," Jake and John have helped hundreds of teams solve important problems by changing how they work. Building on the success of these sprints and their experience designing ubiquitous tech products from Gmail to YouTube, they spent years experimenting with their own habits and routines, looking for ways to help people optimize their energy, focus, and time. Now they've packaged the most effective tactics into a four-step daily framework that anyone can use to systematically design their days. Make Time is not a one-size-fits-all formula. Instead, it offers a customizable menu of bite-size tips and strategies that can be tailored to individual habits and lifestyles. Make Time isn't about productivity, or checking off more to-do's. Nor does it propose unrealistic solutions like throwing out your smartphone or swearing off social media. Making time isn't about radically overhauling your lifestyle; it's about making small shifts in your environment to liberate yourself from constant busyness and distraction. A must-read for anyone who has ever thought, "If only there were more hours in the day...." Make Time will help you stop passively reacting to the demands of the modern world and start intentionally making time for the things that matter.

In The 4 Day Week, entrepreneur and business innovator Andrew Barnes makes the case for the four-day week as the answer to many of the ills of the 21st-century global economy. Barnes conducted an experiment in his own business, the New Zealand trust company Perpetual Guardian, and asked his staff to design a four-day week that would permit them to meet their existing productivity requirements on the same salary but with a 20% cut in work hours. The outcomes of this trial, which no business leader had previously attempted on these terms, were stunning. People were happier and healthier, more engaged in their personal lives, and more focused and productive in the office. The world of work has seen a dramatic shift in recent times: the former security and benefits associated with permanent employment are being displaced by the less stable gig economy. Barnes explains the dangers of a focus on flexibility at the expense of hard-won worker protections, and argues that with the four-day week, we can have the best of all worlds: optimal productivity, work-life balance, worker benefits and, at long last, a solution to pervasive economic inequities such as the gender pay gap and lack of diversity in business and governance. The 4 Day Week is a practical, how-to guide for business leaders and employees alike that is applicable to nearly every industry. Using qualitative and quantitative data from research gathered through the Perpetual Guardian trial and other sources by the University of Auckland and Auckland University of Technology, the book presents a step-by-step approach to preparing businesses for productivity-focused flexibility, from the necessary cultural conditions to the often complex legislative considerations. The story of Perpetual Guardian's unprecedented work experiment has made headlines around the world and stormed social media, reaching a global audience in more than seventy countries. A mix of trenchant analysis, personal observation and actionable advice, The 4 Day Week is an essential guide for leaders and workers seeking to make a change for the better in their work world.

There are 168 hours in a week. This book is about where the time really goes, and how we can all use it better. It's an unquestioned truth of modern life: we are starved for time. With the rise of two-income families, extreme jobs, and 24/7 connectivity, life is so frenzied we can barely find time to breathe. We tell ourselves we'd like to read more, get to the gym regularly, try new hobbies, and accomplish all kinds of goals. But then we give up because there just aren't enough hours to do it all. Or else, if we don't make excuses, we make sacrifices. To get ahead at work we spend less time with our spouses. To carve out more family time, we put off getting in shape. To train for a marathon, we cut back on sleep. There has to be a better way-and Laura Vanderkam has found one. After interviewing dozens of successful, happy people, she realized that they allocate their time differently than most of us. Instead of letting the daily grind crowd out the important stuff, they start by making sure there's time for the important stuff. They focus on what they do best and what only they can do. When plans go wrong and they run out of time, only their lesser priorities suffer. It's not always easy, but the payoff is enormous. Vanderkam shows that it really is possible to sleep eight hours a night, exercise five days a week, take piano lessons, and write a novel without giving up quality time for work, family, and other things that really matter. The key is to start with a blank slate and to fill up your 168 hours only with things that deserve your time. Of course, you probably won't read to your children at 2:00 am, or skip a Wednesday morning meeting to go hiking, but you can cut back on how much you watch TV, do laundry, or spend time on other less fulfilling activities. Vanderkam shares creative ways to rearrange your schedule to make room for the things that matter most. 168 Hours is a fun, inspiring, practical guide that will help men and women of any age, lifestyle, or career get the most out of their time and their lives.
