Arnie Wexler's compulsive gambling spiraled out of control . . . now after forty-plus years in recovery he is a nationally known expert on gambling addiction and helps others to "quit the bet." All Bets Are Off chronicles Wexler's life as a gambler that began on the streets of Brooklyn, New York, flipping cards, shooting marbles, and playing pinball machines. At age fourteen he found the racetrack, a bookie to take his bets, and started playing the stock market.

Wexler's compulsive gambling spiraled out of control...after forty-plus years in recovery, he's become a nationally known expert on gambling addiction.

Six months after marrying her boyfriend, Samantha learns three things about her new hubs. 1.He's been killed in a freak accident. 2.She's inherited his secret PI business. 3.He had another wife. When strangers show up making demands, Samantha must discover who her husband really was, even if the truth puts her in danger too.

When he was eight years old, David Schwarz saw his father killed in front of him in a domestic dispute gone wrong. Despite going on to become a star footballplayer, playing 11 seasons with the Melbourne Football Club, the effect of this early shocking experience would shadow him throughout his successful sporting career. This is David Schwarz's honest and courageous story, told in full for the first time. Starting with the trauma of losing his father and riding the highs and lowsof his football career, David tells the tale of his eventual undoing - a gambling addiction that saw him lose every dollar he'd ever earned and took him to the brink of personal and professional destruction. But it is also a tale of redemption, as David recounts the moment he turned his life around, and the path of recovery since.

What happens when you weigh 400 pounds and are told you must change your lifestyle or your type 2 diabetes will kill you? How and where do you possibly get started when you don't even know how you got here in the first place? How do you take that first step into the unknown from a place that is sadly and oddly comforting? What will you encounter along the way, and how will you keep going when the finish line is nowhere in sight? You will have to learn, all on your own, that the mountains you are stubbornly carrying are actually mountains meant to be climbed. From insulin shots to ultra running, Betsy shares, in her honest and often humorous way, the stories, advice, pitfalls and triumphs of her very personal journey to build a healthy new life. And what life is like today as a healthy, active, non-diabetic woman.

Includes an excerpt from Maid of dishonor by Heidi Rice.

In the nineteenth century, Manselton in Swansea boasted one of the finest racecourses in Britain. Grand National jockeys were amongst the household names to grace a course. This book provides the history of horse racing in the Swansea/Neath area from roughly the beginning of the 19th century until the early part of the 20th century.

"An enthusiastic, example-rich argument for innovating in a particular way—by deliberately experimenting and taking small exploratory steps in novel directions. Light, bright, and packed with tidy anecdotes" (The Wall Street Journal). What do Apple CEO Steve Jobs, comedian Chris Rock, prize-winning architect Frank Gehry, and the story developers at Pixar films all have in common? Bestselling author Peter Sims found that rather than start with a big idea or plan a whole project in advance, they make a methodical series of little bets, learning critical information from lots of little failures and from small but significant wins. Reporting on a fascinating range of research, from the psychology of creative blocks to the influential field of design thinking, Sims offers engaging and illuminating accounts of breakthrough innovators at work, and a whole new way of thinking about how to navigate uncertain situations and unleash our untapped creative powers.

Some days, no matter how awful, are not worth a do-over One wild weekend in Vegas Samantha True and her boyfriend impulsively marry. Six months later she learns three things about her new husband. 1. He's been killed in a freak accident. 2. She's inherited his secret PI business. 3. He had another wife. Broke and devastated, she dives into learning the PI business—how hard can it be? Following a binge-watching How To session on Youtube, Samantha's ready to take her first case. When mysterious strangers show up at her doorstep demanding information about her dead husband, she realizes she's in over her head. Samantha must discover who he really was. But what if the truth puts her in danger, too?

Net and Gross . . . Nassau . . . the Hawk . . . Amigo . . . the Train Game . . . Second Ball . . . the Umbrella Game . . . What does it all mean? Recreational golfers around the world thrive on games within games as a way to enhance the golf experience, level the playing field, and, most important, have a lot more fun. Golf Digest's Complete Book of Golf Betting Games lays it all out—every game, every format, and every variation—with a quick-reference glossary of every golf gambling term ever uttered. Organized by chapters for twosomes, threesomes, foursomes, or buddy trips with all the side games, each section is simple to navigate, with helpful strategy tips for each game and a set of clear-cut scorecard instructions

Poker champion turned business consultant Annie Duke teaches you how to get comfortable with uncertainty and make better decisions as a result. In Super Bowl XLIX, Seahawks coach Pete Carroll made one of the most controversial calls in football history: With 26 seconds remaining, and trailing by four at the Patriots' one-yard line, he called for a pass instead of a hand off to his star running back. The pass was intercepted and the Seahawks lost. Critics called it the dumbest play in history. But was the call really that bad? Or did Carroll actually make a great move that was ruined by bad luck? Even the best decision doesn't yield the best outcome every time. There's always an element of luck that you can't control, and there is always information that is hidden from view. So the key to long-term success (and avoiding worrying yourself to death) is to think in bets: How sure am I? What are the possible ways things could turn out? What decision has the highest odds of success? Did I land in the unlucky 10% on the strategy that works 90% of the time? Or is my success attributable to dumb luck rather than great decision making? Annie Duke, a former World Series of Poker champion turned business consultant, draws on examples from business, sports, politics, and (of course) poker to share tools anyone can use to embrace uncertainty and make better decisions. For most people, it's difficult to say "I'm not sure" in a world that values and, even, rewards the appearance of certainty. But professional poker players are comfortable with the fact that great decisions don't always lead to great outcomes and bad decisions don't always lead to bad outcomes. By shifting your thinking from a need for certainty to a goal of accurately assessing what you know and what you don't, you'll be less vulnerable to reactive emotions, knee-jerk biases, and destructive habits in your decision making. You'll become more confident, calm, compassionate and successful in the long run.
