Body cams and dashcams have fundamentally transformed law enforcement in recent years. These innovations can help prove someone committed a crime, or didn't. Real-life footage has cleared people initially accused of wrongdoing, and in certain instances even implicated officers. But that same type of footage can also be used to clear police falsely accused of misdeeds. From allegations of harassment or bias to false arrests or even criminal conduct, these videos can prove officers did not cross a line as sometimes they are alleged to have done. *Breaking Blue* is the first book that shares real stories of cops accused of wrongdoing and subsequently cleared. Charges may have been brought against them, Internal Affairs may have started an investigation, but in many cases, thanks to the officer's body cam or dashcam videos, the true story came to light, with charges ultimately dismissed or initial convictions overturned. Sergeant Sean "Sticks" Larkin of the Tulsa Police Department Gang Unit and host of A&E show *Live PD*, presents real stories of officers falsely accused. . . . including his own. Now, we can finally get both sides of the story for citizens and the police officers hired to serve and protect.

"No one who enjoys mystery can fail to savor this study of a classic case of detection." —TONY HILLERMAN On the night of September 14, 1935, George Conniff, a town marshal in Pend Oreille County in the state of Washington, was shot to death. A lawman had been killed, yet there seemed to be no uproar, no major investigation. No suspect was brought to trial. More than fifty years later, the sheriff of Pend Oreille County, Tony Bamonte, in pursuit of both justice and a master's degree in history, dug into the files of the Conniff case—by then the oldest open murder case in the United States. Gradually, what started out as an intellectual exercise became an obsession, as Bamonte asked questions that unfolded layer upon layer of unsavory detail. In Timothy Egan's vivid account, which reads like a thriller, we follow Bamonte as his investigation plunges him back in time to the Depression era of rampant black-market crime and police corruption. We see how the suppressed reports he uncovers and the ambiguous answers his questions evoke lead him to the murder weapon—missing for half a century—and then to the man, an ex-cop, he is convinced was the murderer. Bamonte himself—a logger's son and a Vietnam veteran—had joined the Spokane police force in the late 1960s, a time when increasingly enlightened and educated police departments across the country were shaking off the "dirty cop" stigma. But as he got closer to actually solving the crime, questioning elderly retired members of the force, he found himself more and more isolated, shut out by tight-lipped hostility, and made dramatically aware of the fraternal sin he had committed—breaking the blue code. *Breaking Blue* is a gripping story of cop against cop. But it also describes a collision between two generations of lawmen and two very different moments in our nation's history.

An investigation into the oldest open murder case in the United States follows Sheriff Tony Bamonte as he attempts to discover who shot Pend Oreille County's town

marshal fifty-four years earlier.

Think It Can't Happen Here? Think Again: Operation Vigilant Eagle HR 347 Million Vet March IRS Targeting Bundy Ranch Ferguson Patriot Act Partisanship is on the rise, the economy is in a downward spiral, and there is a steady erosion of civil liberties. These factors all contribute to a plotline that is as unthinkable as it is inevitable. A Second American Civil War. From the backroom deals in Washington D.C. to the front lines of the battlefield. Daugherty offers an unflinching view of how a modern war on American soil would play out. A nightmare scenario which will come true.

Whatever your position is on Black Lives Matter, defunding the police, and equity in law enforcement, former police chief Carmen Best shares the leadership lessons she learned as the first Black woman to lead the Seattle Police Department—a personal insider story that will challenge your assumptions on how to move the country forward. Chief Carmen Best has spent the last 28 years as a member of a big-city police force, an institution where minorities and women have historically found it especially difficult to succeed. She defied the odds and became the first Black woman to lead the Seattle Police Department. During her tenure, she was successful in bringing significantly more diversity to the force. However, when the city council cut her budget amid months of protests against police violence, she had no choice but to step aside. Without the city's support, she felt she wouldn't be able to continue changing the status quo of the police force from within. Throughout her career, Chief Best has learned lessons that those coming up behind her can benefit from. In this book, she will use her story to share those urgent lessons. Readers will read about: How Chief Best grew up to believe in the change she set out to create. Her early days in the police force, including lessons from the academy and her time on patrol. How she progressed in her career within a primarily white law enforcement culture and the events that led to her becoming Chief. How she built her team and overcame the politics involved in her high-level position until the call for defunding came. Carmen Best teaches readers the core qualities and mindset to persevere and rise through the ranks, even within a workplace whose culture and leadership must be challenged, and policies changed on the way to achieving that vision. Her motivating story serves as a master class in guiding principles for anyone striving to serve their community and rise to the highest echelon of success.

The true story of Depression era police corruption and crime in Pend Oreille County Washington.

Lucky child - what a wondrous world you live in! This is the theme of Little Blue Planet - a book meant to be read aloud to very young children. As you and the child explore the pages of this book, you will encounter the natural wonders of our world: forests, jungles, volcanoes, swamps, coral reefs and many more. Each of these wonders is captured in a two-page spread, with a scenic watercolor on the left and an imaginative view featuring a child on the right. This book is a first travelogue for the
