Chapter 18 WH - PCV|MAC

The American Enlightenment was a period of intellectual ferment in the thirteen American colonies in the 18th to 19th century, which led to the American Revolution, and the creation of the United States of America. The American Enlightenment was influenced by the 17th-century European Enlightenment and its own native American philosophy. According to James MacGregor Burns, the spirit of the American Enlightenment was to give Enlightenment ideals a practical, useful form in the life of the nation

American Enlightenment - Wikipedia

The American Enlightenment was a philosophical movement that began the early 1700s and ended in the 1810s. During this period, the American colonies underwent a change in thought. Society began to...

American Enlightenment Literature | Study.com

Introduction to the Enlightenment. The Enlightenment, a philosophical movement that dominated in Europe during the 18th century, was centered around the idea that reason is the primary source of authority and legitimacy, and advocated such ideals as liberty, progress, tolerance, fraternity, constitutional government, and separation of church and state.
