The concept of cities as potential photovoltaic power plants is rapidly gaining prominence, but until now there has been no large scale study of the impacts of such development on urban fabric and infrastructure, or on inhabitants. This book, based on wide-ranging studies supported by the European Commission and International Energy Agency, is the first to properly address these issues.

([www.canammissing.com](http://www.canammissing.com)- missing person site) Author David Paulides has released the sixth installment in his best selling series, Missing 411. The books have revealed the names and facts behind people who have disappeared in the national parks and forests of the world. The identification of over 59 geographical clusters of missing people in North America is one of the mysterious, unsettling and unexplained elements in the Missing 411 series. Missing 411- Hunters explains a subset of the research and documents 148 cases of
