"The End Of The Line" is an eye opening film about how our seafood source is slowly being depleted (Sushi, anyone?), and within the next 50 (or so) years, there will not be any more fish in the waterways of the world, due to over fishing (marine life, as we know it, will only be a distant memory, and anything resembling marine life will be on display in either history books, or worse yet, places such as Marine World, where dolphins, whales, etc. are exploited for the sake of entertainment).

The End of the Line (2009) - IMDb

Directed by Rupert Murray, The End Of The Line is the world's first major documentary about the devastating effect of overfishing and examines the imminent extinction of bluefin tuna, brought on by increasing western demand for sushi; the impact on marine life resulting in huge overpopulation of jellyfish; and the profound implications of a future world with no fish that would bring certain mass starvation.

ABOUT THE FILM | The End of the Line

Scientists predict that if we continue fishing at the current rate, the planet will run out of seafood by 2048 with catastrophic consequences. Based on the book by Charles Clover, and narrated by...

The Other End of the Line (2008) - IMDb

The End of the Line is a gripping, sobering documentary for anyone who loves fish, the ocean--and the health of the earth's entire ecosystem. British filmmaker Rupert Murray has created a must-see film--a true call to action--that compellingly makes the case that the earth's oceans must be preserved, like great areas of the land, for future generations, to prevent the emptying of the seas of fish.
