entity relationship diagram passport registration system

File Type PDF Entity Relationship Diagram Passport Registration System

An entity-relationship (ER) diagram is a graphical representation of entities and their relationships. Entities are the things we need to store data about. It's an aspect of your business that needs to be stored, such as a book or author, customer or publisher, for example. In the diagram, entities are represented by boxes with lines consist various attributes. entities link up each other according to the relationships between them or how they interact with each other.
