Lab 1 Exercise, Topographic Maps 1.

Using a Contour Map/Making a

Topographic Profile (a) Label each

contour line on Figure 1 with its proper

elevation (hint: contours are generally

drawn at values divisible by 5 or 10;

note the contour interval is 20 ft.)

Environmental Geology, Topographic
Map Lab

A topographic map is a useful type of map that adds a third dimension (vertical) to an otherwise two-dimensional map defined by the north, south, east, and west compass directions. This third dimension on a topographic map is represented by contour lines, which are imaginary lines drawn on a map that represent a constant elevation above either
