HYUNDAI recommends use of fuels treated with detergent additives, which help to prevent deposit formation in the engine. These fuels will help the engines run cleaner and increase the Emission Control System performance. Page 5: Vehicle Run-In Process Introduction A030000AUN-UK No special run-in period is needed. By following a few simple ...

In the basic configuration, the hatchback Hyundai i10 had a five-speed manual transmission, for gasoline versions it was possible to order a four-stage “automatic”. In 2010, the “ai-tenth” restyled, and in 2013 it gave way to the second generation of the model. Only in the Indian market is the old and new versions of the machine sold in parallel. Second generation, 2013. The compact ...

The main blot on the i10's report card is the crude and clunky five-gear automated manual transmission - a replacement for the traditional auto gearbox used in the old model. You're better off sticking to the manual. Standard equipment levels are very good and there are no basic models in the line-up.
