Investigations in Number, Data, and Space[®], published by Pearson Scott Foresman, is an activity-based K-5 mathematics curriculum. It is designed to help all students understand the fundamental ideas of number and operations, geometry, data, measurement, and early algebra. The curriculum encourages students to use prior knowledge to develop an understanding of fundamental mathematical ideas.

standard of excellence as a focused and coherent program that supports students to make sense of mathematical ideas and supports their teachers to make sense of both mathematics content and student thinking. It embodies the Mathematical Practices in the Common Core State Standards for Mathematics, and aligns to the Content Standards.

Cambridge, Massachusetts, United States. The curriculum is often referred to as Investigations or simply TERC. Patterned after the NCTM standards for mathematics, it is among the most widely used of the new reform mathematics curricula. As opposed to referring to textbooks and having teachers impose methods for solving arithmetic problems, the TERC program uses a constructivist approach that ...
