This book addresses how Western universities have constructed themselves as global providers of education, and are driven to be globally competitive. It examines how the term 'international' has been exploited by the market in the form of government educational policies and agencies, host institutions, academia and the mass media. The book explores matters relating to the role of the English language in international education in general and the field of TESOL in particular. It demonstrates how English and TESOL have exercised their symbolic power, coupled with the desire for international education, to create convenient identities for international TESOL students. It also discusses the complexity surrounding and informing these students' painful yet sophisticated appropriation of and resistance to the convenient labels they are subjected to.

In the vast majority of ghost stories, the reader's gateway into the tale is the point of view of the person being haunted. In Margaret Oliphant's unique take on the genre, however, we're granted both sides of the story. This tale of a mysteriously missing will is enlivened (so to speak) by the "voice" of the deceased woman of the title, Old Lady Mary.

This book is the product of a collaborative effort involving partners from Africa, Asia, Europe and Latin America who were funded by the International Development Research Centre Programme on Women and Migration (2006-2011). The International Institute of Social Studies at Erasmus University Rotterdam spearheaded a project intended to distill and refine the research findings, connecting them to broader literatures and interdisciplinary themes. The book examines commonalities and differences in the operation of various structures of power (gender, class, race/ethnicity, generation) and their interactions within the institutional domains of intra-national and especially inter-national migration that produce context-specific forms of social injustice. Additional contributions have been included so as to cover issues of legal liminality and how the social construction of not only femininity but also masculinity affects all migrants and all women. The resulting set of 19 detailed, interconnected case studies makes a valuable contribution to reorienting our perceptions and values in the discussions and decision-making concerning migration, and to raising awareness of key issues in migrants' rights. All chapters were anonymously peer-reviewed. This book resulted from a series of projects funded by the International Development Research Centre (IDRC), Canada.

In Australia and New Zealand, many public projects, programs and services perform well. But these cases are consistently underexposed and understudied. We cannot properly 'see'—let alone recognise and explain—variations in government performance when media, political and academic discourses are saturated with accounts of their shortcomings and failures, but are next to silent on their achievements. Successful Public Policy: Lessons from Australia and New Zealand helps to turn that tide. It aims to reset the agenda for teaching, research and dialogue on public policy performance. This is done through a series of close-up, in-depth and carefully chosen case study accounts of the genesis and evolution of stand-out public policy achievements, across a range of sectors within Australia and New Zealand. Through these accounts, written by experts from both countries, we engage with the conceptual, methodological and theoretical challenges that have plagued extant research seeking to evaluate, explain and design successful public policy. Studies of public policy successes are rare—not just in Australia and New Zealand, but the world over. This book is embedded in a broader project exploring policy successes globally; its companion volume, Great Policy Successes (edited by Paul 't Hart and Mallory Compton), is published by Oxford University Press (2019).

Agathe von Trapp, the oldest daughter in the Trapp Family Singers, offers readers the real story behind an American classic in her poignant and fascinating autobiography Memories Before and After The Sound of Music. The courageous family and events immortalized in the beloved Broadway musical and hit Hollywood film come vibrantly alive in these pages, and Agathe's post-Sound of Music life is equally compelling.
