UDACT Programming - Notifier (too old to reply) CVFE 2014-05-28 17:35:03 UTC. Permalink. I just got a monitoring contact for a business with a Notifier NFS-320. It's monitored now using an AES network. I'm not set up to do AES. Any ideas how I monitor this panel. I'm assuming I need to hook up a UDUCT and program it.

**UDACT Programming - Notifier - narkive**

When using a UDUCT, the "DACT" mode must be selected under the extended programming feature and "Annun" under programming. The CALIFORNIA CODE mode adds a ten second timer. When an alarm occurs, the timer is started.

**Notifier - System 500 Installation Operation And Programming**

The new UDUCT-2 has no more front programmable keypad as all of the programming is now done through Notifier's programming software, Verifire Tools. This makes it nice as you can now move much more quickly through the programming steps and more importantly you can now save a copy of your database.
