Printmaking Techniques Using A ...
Letterpress printing is a technique of relief printing using a printing press, a process by which many copies are produced by repeated direct impression of an inked, raised surface against sheets or a continuous roll of paper. A worker composes and locks movable type into the "bed" or "chase" of a press, inks it, and presses paper against it to transfer the ink from the type which creates an ...

Relief Printing Inks – Handprinted
Buy Cranfield Caligo Safewash Relief Inks
from Cass Art: Caligo Safewash Relief
Inks are oil-based inks that wash away
safely with liquid soap and water. Suitable
for all types of relief or block printing, such
as woodcut and wood engraving,
letterpress and linocut. This range
contains less than 1% of driers. All the inks
rate 6 or higher on the International Blue
Wool Scale.

Where To Download Paper And Ink Workshop

What is Screen Printing? Screen printing is a technique that uses a mesh and a negative stencil to print a repeatable image. A squeegee is used to press ink through the mesh to create the print on a surface. There are two screen printing methods we can use. Either the “ lo-fi ” method – in which we cut shapes out of paper to use for the stencil or alternately more complex method that uses ...
