Public administration ensures the development and delivery of the essential public services required for sustaining modern civilization. Covering areas from public safety and social welfare to transportation and education, the services provided through the public sector are inextricably part of our daily lives. However, mandatory budgetary cuts in recent years have caused public administrators to radically re-think how they govern in the modern age. In this Very Short Introduction Stella Theodoulou and Ravi Roy offer practical insight into the major challenges confronting the public sector in the globalized era. Tackling some of the most hotly debated issues of our time, including the privatization of public services and government surveillance, they take the reader on a global journey through history to examine the origins,

administration: innovations in e-government, the importance of new technology, changes in intergovernmental relations, especially the emphasis on inter-local and shared regional resources, and public performance and accountability initiatives. Public Administration has been crafted with student appeal in mind. Each of the book's chapters is generously illustrated with cartoons, quotes, and artwork—all reinforcing the book's theme that the field of public administration is rooted in the cultural and political world. Each chapter is also supported with a listing of key terms, exercises, and additional resources. The textbook is supported by one of the most comprehensive and easy-to-use instructors' manuals of any introductory text on the market today. It contains full lesson plans with activities to accommodate a broad range of

In every part of the world information and technology are changing society and challenging the structures, roles, and management of traditional government institutions. At the same time, universal needs for human and social development, environmental protection, commercial and financial stability, and scientific and technological advancement demand governmental attention. In this complex and changing environment, governments are still expected to provide for the public good through legal and political processes, and public programs and services. Digital transformation, electronic government, government 2.0, and electronic governance are just some of the labels used to characterize the ideas and actions that underlie adaptation, transformation, and reform efforts. This book contributes to

the ongoing dialog within the digital government research and practice community by addressing leadership and management challenges through the interplay of five interconnected themes: management, policy, technology, data, and context. These themes are evident in a wide range of topics including policy informatics, smart cities, cross-boundary information sharing, service delivery, and open government, among others. Accordingly, it includes chapters that explore these themes conceptually and empirically and that emphasize the importance of context, the need for cross-boundary thinking and action, a public value approach to performance, and the multi-dimensional capabilities necessary to succeed in a dynamic, multi-stakeholder environment. The chapters in this book were originally

survey design, implementation, data management, and data analysis, this text is based in sociological research and contains extensive examples throughout. This book examines the uniqueness of each research topic and the fact that when doing such research, there is a need to make decisions about the many unique situations while trying to answer the research question. Each chapter is framed by addressing the decisions that need to be made depending on the various challenges that may arise as the survey study is developed.

communication can and should go in changing people's values. The author broadens the current analysis of interventions and presents conceptual frameworks that help identify values and justifications that are embedded in health communication goals, strategies, and evaluation criteria. This critical approach helps explain how and why choices are made in design and implementation, and provides constructs and frameworks to examine them. It also widens the criteria for program evaluation and policymaking, and provides practitioners, planners, policy-makers, researchers, and students with practice-oriented questions.
