Vladimir Putin has had a major domestic and international impact since being elected Russian President in March 2000 and yet remarkably little is known about the man in the West. Putin: Russia's Choice, written by one of the UK's leading scholars of Russian politics, is the first major study of the man and his politics. Sakwa's discussion provides the biographical and political context to explain Putin's astonishing rise from anonymous KGB apparatchik to leader of one of the world's most important and significant countries.

A Sunday Times bestseller | A New York Times Book Review Editors' Choice Named a best book of the year by The Economist | Financial Times | New Statesman | The Telegraph "[Putin's People] will surely now become the definitive account of the rise of Putin and Putinism." —Anne Applebaum, The Atlantic "This riveting, immaculately researched book is arguably the best single volume written about Putin, the people around him and perhaps even about contemporary Russia itself in the past three decades." —Peter Frankopan, Financial Times Interference in American elections. The sponsorship of extremist politics in Europe. War in Ukraine. In recent years, Vladimir Putin's Russia has waged a concerted campaign to expand its influence and undermine Western institutions. But how and why did all this come about, and who has orchestrated it? In Putin's People, the investigative journalist and former Moscow correspondent Catherine Belton reveals the untold story of how Vladimir Putin and the small group of KGB men surrounding him rose to power and looted their country. Delving deep into the workings of Putin's Kremlin, Belton accesses key inside players to reveal how Putin replaced the freewheeling tycoons of the Yeltsin era with a new generation of loyal oligarchs, who in turn subverted Russia's economy and legal system and extended the Kremlin's reach into the United States and Europe. The result is a chilling and revelatory exposé of the KGB's revanche—a story that begins in the murk of the Soviet collapse, when networks of operatives were able to siphon billions of dollars out of state enterprises and move their spoils into the West. Putin and his allies subsequently completed the agenda, reasserting Russian power while taking control of the economy for themselves, suppressing independent voices, and launching covert influence operations abroad. Ranging from Moscow and London to Switzerland and Brooklyn's Brighton Beach—and assembling a colorful cast of characters to match—Putin's People is the definitive account of how hopes for the new Russia went astray, with stark consequences for its inhabitants and, increasingly, the world.

WINNER OF THE ORWELL PRIZE • NEW YORK TIMES EDITORS' CHOICE •

"Unforgettable . . . a book about Putin's Russia that is unlike any other."—Patrick Radden Keefe, author of Empire of Pain From a Moscow correspondent for The New Yorker, a groundbreaking portrait of modern Russia and the inner struggles of the people who sustain Vladimir Putin's rule ONE OF THE BEST BOOKS OF THE YEAR—NPR, Kirkus Reviews In

this rich and novelistic tour of contemporary Russia, Joshua Yaffa introduces readers to some of the country's most remarkable figures—from politicians and entrepreneurs to artists and historians—who have built their careers and constructed their identities in the shadow of the Putin system. Torn between their own ambitions and the omnipresent demands of the state, each walks an individual path of compromise. Some muster cunning and cynicism to extract all manner of benefits and privileges from those in power. Others, finding themselves to be less adept, are left broken and demoralized. What binds them together is the tangled web of dilemmas and contradictions they face. *Between Two Fires* chronicles the lives of a number of strivers who understand that their dreams are best—or only—realized through varying degrees of cooperation with the Russian government. With sensitivity and depth, Yaffa profiles the director of the country's main television channel, an Orthodox priest at war with the church hierarchy, a Chechen humanitarian who turns a blind eye to persecutions, and many others. The result is an intimate and probing portrait of a nation that is much discussed yet little understood. By showing how citizens shape their lives around the demands of a capricious and frequently repressive state—as often by choice as under threat of force—Yaffa offers urgent lessons about the true nature of modern authoritarianism. Praise for *Between Two Fires* “A deep and revealing portrait of life inside Vladimir Putin’s Russia. . . . Yaffa mines a rich vein, describing his subjects’ moral compromises and often ingenious ways of engaging a crooked bureaucracy to show how the Kremlin sustains its authoritarianism.”—The New York Times Book Review “Few journalists have penetrated so deep and with so much nuance into the moral ambiguities of Russia. If you want insight into the deeper distortions the Kremlin causes in people’s psyches this book is invaluable.”—Peter Pomerantsev, author of *Nothing Is True and Everything Is Possible* “A stunning chronicle of Putin’s new Russia . . . It celebrates the vitality of the Russian people even as it explores the compromises and accommodations that they must make. . . . This embrace of contradictions is what makes *Between Two Fires* such a poignant and poetic book.”—Alex Gibney, *Air Mail*

The Russian protests, sparked by the 2011 Duma election, have been widely portrayed as a colourful but inconsequential middle-class rebellion, confined to Moscow and organized by an unpopular opposition. In this sweeping new account of the protests, Mischa Gabowitsch challenges these journalistic clichés, showing that they stem from wishful thinking and media bias rather than from accurate empirical analysis. Drawing on a rich body of material, he analyses the biggest wave of demonstrations since the end of the Soviet Union, situating them in the context of protest and social movements across Russia as a whole. He also explores the legacy of the protests in the new era after Ukraine's much larger Maidan protests, the crises in Crimea and the Donbass, and Putin's ultra-conservative turn. As the first full-length study of the Russian protests, this book will be of great value to students and scholars of Russia and to anyone interested in contemporary social movements and political protest.

This book builds on the strengths of the previous volumes by the same author to provide the most detailed and nuanced account of the man, his politics and his profound influence on Russian politics, foreign policy and society. However, this is not a new edition of the earlier books but is an entirely new work. The focus now is on the dilemmas of power since 2008. There is a brief biographical sketch of Vladimir Putin and much analysis of his ideas and policies, but the book now focuses on the systemic contradictions that have created a blockage on modernisation and a stalemate in politics, Putin's role as Prime Minister since 2008 and his political successes and failures, analysis of the implications of Putin's third term as President and the 2011-12 electoral cycle and the ensuing crisis which led to thousands protesting on the streets This work assesses the achievements and failing of Putin’s rule, but above all tries to make sense of contemporary developments. This is the definitive account of Putin and is

## Read Free Putin Russia S Choice

essential reading for all scholars and students of Russian politics.

Looking beyond Putin to understand how today's Russia actually works Media and public discussion tends to understand Russian politics as a direct reflection of Vladimir Putin's seeming omnipotence or Russia's unique history and culture. Yet Russia is remarkably similar to other autocracies—and recognizing this illuminates the inherent limits to Putin's power. *Weak Strongman* challenges the conventional wisdom about Putin's Russia, highlighting the difficult trade-offs that confront the Kremlin on issues ranging from election fraud and repression to propaganda and foreign policy. Drawing on three decades of his own on-the-ground experience and research as well as insights from a new generation of social scientists that have received little attention outside academia, Timothy Frye reveals how much we overlook about today's Russia when we focus solely on Putin or Russian exceptionalism. Frye brings a new understanding to a host of crucial questions: How popular is Putin? Is Russian propaganda effective? Why are relations with the West so fraught? Can Russian cyber warriors really swing foreign elections? In answering these and other questions, Frye offers a highly accessible reassessment of Russian politics that highlights the challenges of governing Russia and the nature of modern autocracy. Rich in personal anecdotes and cutting-edge social science, *Weak Strongman* offers the best evidence available about how Russia actually works.

An interpretive biography of one of Russia's most formidable leaders

Twice in the winter of 1999-2000, citizens of the Russian Federation flocked to their neighborhood voting stations and scratched their ballots in an atmosphere of uncertainty, rancor, and fear. This book is a tale of these two elections—one for the 450-seat Duma, the other for President. Despite financial crisis, a national security emergency in Chechnya, and cabinet instability, Russian voters unexpectedly supported the status quo. The elected lawmakers prepared to cooperate with the executive branch, a gift that had eluded President Boris Yeltsin since he imposed a post-Soviet constitution by referendum in 1993. When Yeltsin retired six months in advance of schedule, the presidential mantle went to Vladimir Putin—a career KGB officer who fused new and old ways of doing politics. Putin was easily elected President in his own right. This book demonstrates key trends in an extinct superpower, a troubled country in whose stability, modernization, and openness to the international community the West still has a huge stake.
