A history of the American Constitution's formative decades from a preeminent legal scholar When the US Constitution won popular approval in 1788, it was the culmination of thirty years of passionate argument over the nature of government. But ratification hardly ended the conversation. For the next half century, ordinary Americans and statesmen alike continued to wrestle with weighty questions in the halls of government and in the pages of newspapers. Should the nation's borders be expanded? Should America allow slavery to spread westward? What rights should Indian nations hold? What was the proper role of the judicial branch? In *The Words that Made Us*, Akhil Reed Amar unites history and law in a vivid narrative of the biggest constitutional questions early Americans confronted, and he expertly assesses the answers they offered. His account of the document's origins and consolidation is a guide for anyone seeking to properly understand America's Constitution today.

When Americans vote for President and Vice President, they are actually choosing presidential electors, known collectively as the electoral

college. It is these officials who choose the President and Vice President of the United States. The complex elements comprising the electoral college system are responsible for one of the most important processes of the American political and constitutional system: election of the President and Vice President. A failure to elect, or worse, the choice of a chief executive whose legitimacy might be open to question, could precipitate a profound constitutional crisis that would require prompt, judicious, and well-informed action by Congress. Article II, Section 1 of the Constitution, as amended in 1804 by the 12th Amendment, sets forth the requirements for election of the President and Vice President. It authorizes each state to appoint, by whatever means the legislature chooses, a number of electors equal to the combined total of its Senate and House of Representatives delegations, for a contemporary total of 538, including three electors for the District of Columbia. Since the Civil War, the states have universally provided for popular election of the presidential electors. Anyone may serve as an elector, except Members of Congress and persons holding offices of "Trust or Profit" under the Constitution. In each presidential election year, the political parties and other groups that have secured a place on the ballot in each state nominate a "slate" or "ticket" of candidates for elector. When voters cast a single vote for their favored candidates on general election day, Tuesday after the first Monday in November (November 6 in 2012), they are actually voting for the slate of electors pledged to those candidates. The entire slate of electors winning the most popular votes in the state is elected, a practice known as winner-take-all, or the general ticket system. Maine and Nebraska use an alternative method, the district plan, which awards two electors to the popular vote winners statewide, and one to the popular vote winners in each congressional district. Electors assemble in their respective states on the Monday after the second Wednesday in December (December 17 in 2012). They are expected to vote for the candidates they represent. Separate ballots are cast for President and Vice President, after which the electoral college ceases to exist until the next presidential election. State electoral vote results are reported to Congress and are counted and declared at a joint session of Congress, usually held on January 6 of the year succeeding the election, a date that may be altered by legislation. Since January 6 falls on a Sunday in 2013, Congress will likely set another date for the joint session in 2013, possibly January 8. A majority of electoral votes (currently 270 of 538) is required to win, but the results submitted by any state are open to challenge at the joint session, as provided by law. Past proposals for change by constitutional amendment have included various reform options and direct popular election, which would eliminate the electoral college system, but no substantive action on this issue has been taken in Congress for more than 20 years. At present, however, a non-governmental organization, the National Popular Vote (NPV) campaign, proposes to reform the electoral college by action taken at the state level; eight states and the District of Columbia have approved the NPV compact to date.

NEW YORK TIMES BESTSELLER • "Comprehensive, enlightening, and terrifyingly timely."—The New York Times Book Review (Editors' Choice) WINNER OF THE GOLDSMITH BOOK PRIZE • SHORTLISTED FOR THE LIONEL GELBER PRIZE • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Washington Post • Time • Foreign Affairs • WBUR • Paste Donald Trump's presidency has raised a question that many of us never thought we'd be asking: Is our democracy in danger? Harvard professors Steven Levitsky and Daniel Ziblatt have spent more than twenty years studying the breakdown of democracies in Europe and Latin America, and they believe the answer is yes.

Democracy no longer ends with a bang—in a revolution or military coup—but with a whimper: the slow, steady weakening of critical institutions, such as the judiciary and the press, and the gradual erosion of long-standing political norms. The good news is that there are several exit ramps on the road to authoritarianism. The bad news is that, by electing Trump, we have already passed the first one. Drawing on decades of research and a wide range of historical and global examples, from 1930s Europe to contemporary Hungary, Turkey, and Venezuela, to the American South during Jim Crow, Levitsky and Ziblatt show how democracies die—and how ours can be saved. Praise for *How Democracies Die* “What we desperately need is a sober, dispassionate look at the current state of affairs. Steven Levitsky and Daniel Ziblatt, two of the most respected scholars in the field of democracy studies, offer just that.”—The Washington Post “Where Levitsky and Ziblatt make their mark is in weaving together political science and historical analysis of both domestic and international democratic crises; in doing so, they expand the conversation beyond Trump and before him, to other countries and to the deep structure of American democracy and politics.”—Ezra Klein, Vox “If you only read one book for the rest of the year, read *How Democracies Die*. . . . This is not a book for just Democrats or Republicans. It is a book for all Americans. It is nonpartisan. It is fact based. It is deeply rooted in history. . . . The best commentary on our politics, no contest.”—Michael Morrell, former Acting Director of the Central Intelligence Agency (via Twitter) “A smart and deeply informed book about the ways in which democracy is being undermined in dozens of countries around the world, and in ways that are perfectly legal.”—Fareed Zakaria, CNN

Our American Government textbook adheres to the scope and sequence of introductory American government courses nationwide. We have endeavored to make the workings of American Government interesting and accessible to students while maintaining the conceptual coverage and rigor inherent in the subject at the college level. With this objective in mind, the content of this textbook has been developed and arranged to provide a logical progression from the fundamental principles of institutional design at the founding, to avenues of political participation, to thorough coverage of the political structures that constitute American government. The book builds upon what students have already learned and emphasizes connections between topics as well as between theory and applications. The goal of each section is to enable students not just to recognize concepts, but to work with them in ways that will be useful in later courses, future careers, and as engaged citizens. The organization and pedagogical features were developed and vetted with feedback from American government instructors dedicated to the project.
