Slacker | Definition of Slacker by Merriam-Webster

Slacker became widely used in the 1990s to refer to a type of apathetic youth who were cynical and uninterested in political or social causes and as a stereotype for members of Generation X. Richard Linklater, director of the aforementioned 1990 film, commented on the term's meaning in a 1995 interview, stating that "I think the cheapest definition [of a slacker] would be someone who's just ...

We would like to show you a description here but the site won't allow us.

When eighth-grader Cameron Boxer creates the Positive Action Group at school he intends it as a diversion to fool his parents, teachers, and sister into letting him continue to concentrate on his video-gaming--but before he knows it other kids are taking it seriously, and soon he finds himself president of the P.A.G., and involved in community service, so the boy who never cared about anything is now the center of everything, whether he likes it or not.

Cameron Boxer is very happy to spend his life avoiding homework, hanging out with his friends, and gaming for hours in his basement. It's not too hard for him to get away with it . . . until he gets so caught up in one game that he almost lets his house burn down around him. Oops. It's time for some serious damage control--so Cameron and his friends invent a fake school club that will make it seem like they're doing good deeds instead of slacking off. The problem? Some kids think the club is real--and Cameron is stuck being president. Soon Cameron is part of a mission to save a beaver named Elvis from certain extinction. Along the way, he makes some new friends--and some powerful new enemies. The guy who never cared about anything is now at the center of everything . . . and it's going to take all his slacker skills to win this round.

nothing--is accompanied by the director's notes that reveal how the no-budget film defined a generation. Original.

From the bestselling author of Swindle, Restart, and Slacker is another hilarious story about an underachiever who learns to go above and beyond.

The '90's answer to The Preppie Handbook is a satiric, humorous and comprehensive critique, written by the ultimate slacker, that reveals rules, guidelines and recommendations for being a state-of-the-art slacker. The book features a hip MTV-like format with fast-cut sidebars, cartoons, photos, lists, quizzes and charts.

Let's face it. Most of us are clueless when it comes to praying. Why is that? And how come we've never done anything about it? In Confessions of a Prayer Slacker, author Diane Moody traces her own personal prayer journey with a touch of humor and a healthy dose of transparency. "I want my readers to stop the merry-go-round of prayerlessness, quit acting like a bunch of spiritual babies, and get serious about this thing called prayer. Without it, we'll never experience the warm, one-on-one relationship God desires to have with each one of us."

Parents who are fed up with the pressure to turn their children into star athletes, concert violinists, and merit scholars--all at once!--finally have an alternative: the world of Slacker Moms, where kids learn to do things for themselves and parents can cut themselves some slack; where it's perfectly all right to do less, have less, and spend less. Slacker moms say "No" to parenting philosophies that undermine parents'-and children's-ability to think for themselves. They say "Yes" to saving their money and time by opting out of the parenting competition. And they say "Hell, Yes!" to having a life of their own, knowing it makes them better parents. In this witty and insightful book, author Muffy Mead-Ferro reflects on her experience of growing up on a ranch in Wyoming, where parenting--by necessity--was more hands-off, people "made do" with what they had, and common sense and generational wisdom prevailed. We should all take her sane lead!

American Slacker is the story of a young college man caught in a web of murder and deceit. He is a self-roclaimed ass, caring nothing for anyone but himself. Yet he is forced to fight the very forces of evil to save those he holds in such contempt. His family, his few friends, even the very elements themselves seem to have turned against him. Jim Ciscell's gripping novel of the best and worst day in one young man's life, American Slacker is a must read for anyone who looks on, forward, or back to college.

"Stop slacking off " Your parents may have said this to you when you were deep into a video-gaming marathon. Or maybe your roommate said it to you when you were lounging on the couch scrolling through

Instagram. You may have even said it to yourself on days you did nothing. But what is so bad about slacking? Could it be that there's nothing bad about not making yourself useful? Against our hyper-productivity culture, Alison Suen critically interrogates our disapproval of slackers--individuals who do the bare minimum just to get by. She offers a taxonomy of slackers, analyzes common objections to slacking, and argues that each of these objections either fails or carries problematic assumptions. But while this book defends slacking, it does not promote the slacker lifestyle as the key to something better (such as cultural advancement and self-actualization), as some pro-leisure scholars have argued. In fact, Suen argues that slacking is unique precisely because it serves no noble cause. Slacking is neither a deliberate protest to social ills, nor is it a path to autonomy. Slackers just slack. By critically examining the culture of hyper-productivity, Suen argues that it is in fact okay to be a slacker. Key Features Demonstrates the uniqueness of slacking, via a critical examination of six distinct "pro-leisure" philosophical accounts. Articulates a taxonomy of slackers, as well as in-depth examinations of Hollywood slackers and slackers in academia. Examines common objections to slacking (like the freeloading problem), and offers a rebuttal to each of them. Offers an understanding of our productivity culture from an existential perspective.

A charming, unambitious, leisure-loving young woman, Jane Cooper is an anomaly in workaholic New York City, until her cute boss Ray puts his own job on the line to keep her from being fired and she discovers that her commitment to slacking is causing real problems, forcing her to come up with a plan to save her job, her company, her friendship, and her heart. A first novel. Original.
