Deciphering the European Investment Bank: History, Politics and Economics examines the European Investment Bank (EIB), the European Union's financial institution and the largest lender and borrower among the International Financial Institutions. Since its establishment in 1958, the EIB has developed without becoming front-page news and has remained highly invisible. By putting together fourteen chapters that analyze topical and meaningful moments and aspects of the bank, this edited book offers the first comprehensive analysis of its origins and its evolution in terms of its mandate, governance, structures, policy activity, and performance. Written by acknowledged experts from various disciplines, the chapters weave together history, economics, law, and political science to provide a multidisciplinary examination and capture the complexity of the EIB. The book is a timely initiative for understanding the EIB, whose role has been ever increasing for contributing to the recent global economic challenges, including the economic and financial crisis, climate change and COVID-19 pandemic. The chapters are written at a level which will be comprehensible to undergraduates in economics, history, and international political economy. It will also be a valuable source of reference for academics, policy makers, bankers, and other practitioners interested in regional development banks and their role in the global economy.

Download Ebook The European Investment Bank

The climate crisis and the COVID-19 pandemic remind us that we cannot face down our challenges alone—our solutions must be global. The European Investment Bank is at the heart of the push to turn EU policy initiatives into real development solutions on the ground. This report provides insights into our vital projects and initiatives outside the European Union, data on their impact and ideas for the future of development through a series of expert essays.

This volume draws together diverse sources of information from the EIB's own reports and bulletins, as well as reports of the Us Federal Reserve Board, the IMF and OECD, together with press and journal sources to examine the history, borrowing and lending operations from 1958-1980. It also discusses some of the environmental and social effects of its lending activities. Some consideration has also been given to the bank's operations beyond EU boundaries. The book sheds light on an important EU institution which is crucial to EU member states' infrastructure, industry and economy.

Africa is embarking upon a period in which its political, economic and

social outlook will transform. The European Investment Bank is a key part of the EU toolbox that for decades has helped make the partnership between Africa and Europe stronger. We aim to maximise our potential as the EU bank, so that we can join our African partners in addressing today's critical challenges together and embrace our opportunities. This publication lays out our track record in Africa and our vision for our future partnership with the continent.

Our flagship report illustrates how the European Investment Bank Group confronted two great threats in 2021, the climate crisis and the coronavirus pandemic, even as the challenges posed by development grew more urgent. The EU bank tackled these hazards by thinking hard and moving fast – in new directions. The Activity Report report highlights our emergency response to COVID-19 through the unique European Guarantee Fund, as well as our support for healthcare companies working on cures and therapies for the disease. It illustrates the dimensions of our backing for companies that are forging new frontiers of climate action – sometimes right into outer space. It demonstrates our commitment to a better future for all Europeans in our cohesion investment and for all global citizens through our development work. Built around 25 articles about the work of the European Investment Bank and the European Investment Fund in COVID-19 response, climate

action, cohesion and development, the Activity Report highlights our contribution to a healthy, green and inclusive world. Figures are expected outcomes of financed new operations signed in 2020 for the first time based on available data at this stage. All figures are unaudited and provisional.

This book tells one set of stories from the many that could be told about the European Investment Bank. There are six, one for each decade of the EIB story. These stories show how the EIB stood behind the key developments in Europe's economy, responding to the changes in the continent and the Union of which it is a crucial part. They are the story of how the EIB helped turn good intentions into reality.
