While Led Zeppelin have always been renowned for their heavy blues rock and beyond, Jimmy Page and Robert Plant's vision was always a fusion between rock and traditional acoustic folk and Celtic music. Drawing from a spectacularly wide range of influences, Jimmy Page brews a distinctive and unmistakable blend when unplugged. Featuring all new arrangements with correct alternate tunings, based on never-before-available isolated guitar tacks, this book collects all the best acoustic songs from Led Zeppelin's storied catalog, in authentic guitar TAB transcriptions. A foreword by Jimmy Brown of Guitar World magazine provides a necessary insight into the material, and there's even a tuning key in the back that will illuminate Page's frequent use of altered tunings.
