Edwards' syndrome, also known as trisomy 18, is a rare but serious condition.

Edwards' syndrome affects how long a baby may survive.

Sadly, most babies

Download File PDF Trisomy 18

with Edwards' syndrome will die before or shortly after being born. A small number (about 13 in 100) babies born alive with Edwards' syndrome will live past their 1st birthday.

Of North America

Dr Daniel J Bell and
Assoc Prof Frank
Gaillard et al. The

trisomies are
chromosomal
anomalies which
usually occur due to
non-disjunction. The
vast majority of
affected fetuses are
spontaneously
aborted, often very
early during gestation.

Download File PDF Trisomy 18

Only three are compatible with extrauterine life (T13, T18, T21), and only one beyond early infancy (T21).
