This book and its companion Re-Zoom are simply wonderful. Not only is the quality of the illustration first class, but the idea of zooming (almost endlessly) in and out of a picture is superbly done. It's full of surprises (I wont post spoilers) - suffice it to say that just as you think you've worked out what the picture is, the next level of zoom turns it on its head.

Zoom (Picture Puffin Books) by Istvan Banyai (9780140557749)  
Zoom was recommended to me as a profound book of surprise transformations that I as an adult artist would find fascinating. It is in fact a child's picture book drawn in an illustration style from the 1930's or 40's that shows transformations a small child might find surprising, but which most adults will find banal, expected, arbitrary, and limited by the chosen drawing medium and style.

Zoom Picture Puffin Series: Author: Istvan Banyai: Illustrated by: Istvan Banyai: Edition: illustrated, reprint: Publisher: Puffin Books, 1998: ISBN: 0140557741, 9780140557749: Length: 64 pages...

A wordless picture book takes young readers on an imaginative journey to different places with each turn of the page as various landscapes are presented in full-color illustration. Reprint.

A wordless picture book presents a series of scenes, each one from farther away, showing, for example, a boat which becomes the image on a magazine, which is held in a hand, which belongs to a boy, and so on.

A unique and groundbreaking picture book offers compelling illustrations that, without words, create a world full of nuances and details, full of striking tableaux that seem to transform before your eyes.

The toys surrounding a boy who has fallen asleep while playing in his room reappear as fantastical images as he dreams.

This wordless picture book provides page after page of shapes that carry the reader through a bright and exciting journey to different places filled with different colors. Reprint.

No illustrator surpasses Istvan Banyai at portraying the dream lives of today's New York and Los Angeles hip urban style-setters. His repertoire of visual special effects, whether seen in magazines, books, or animated films, is perfectly suited to a pop culture in which anything - appearance, identity, status - can be morphed into its opposite. This first collection of Banyai's memorable pictures is a tribute to this dazzlingly gifted illustrator, a transplanted Hungarian who sees America with fresh eyes - and whose art uniquely speaks for our time. In the Banyai universe, reflections and shadows become alternate realities, faces are interchangeable, and sex is a game played with laptop and webcam. Even his popular children's book illustrations consist of sequences that shift vertiginously from scene to scene. Banyai describes his art as "an organic combination of turn-of-the-century Viennese retro, interjected with American pop, some European absurdity added for flavor, served on a cartoon-style color palette... no social realism added." That distinctive perspective informs every page of this striking book.

A clever and heartwarming picture book that offers reassurance and hope in our difficult time. Good Morning Zoom takes the reader on a lyrical journey through our "new normal." From "Zoom school," to watching doctors and nurses on TV, to building pillow forts and talking to loved ones from a distance, this poignant book reminds us that there are still things to enjoy and be excited about in these unprecedented times.

The dinosaurs return in a story that finds them traveling in vehicles of all shapes and sizes to a fun-filled birthday party that culminates in a surprise ending.

If you were an astronaut traveling far out in space and you looked at the earth, what would you see? A small ball in the huge black universe. That ' s where these pictures begin. Then they move closer and closer to the earth, each view revealing new details. Until finally . . . See for yourself. In this wordless picture book with stunning cut-paper illustrations, Steve Jenkins masterfully depicts the many levels of the universe, from the farthest reaches of space to the most familiar corner of your backyard.

Scout is an inventor, a dreamer, a do-er. After breakfast, Scout builds a rocket and flies to outer space to explore our solar system and the animals that make up the universe. When the rocket starts running low on fuel, it's time to go home and get ready for bed. Because even the most intrepid explorers need their sleep. Zoom is an adventure story full of fun sounds and action that is a delight to read aloud.
